OLC 80-1490/C

8 JUL 1980

Honorable C. W. Bill Young
Permanent Select Committee on Intelligence
House of Representatives
Washington, D.C. 20515

Dear Mr. Young:

For your information, I am enclosing press clippings on the incident in Jamaica wherein the home of an officer of the U.S. Embassy was machine gunned after a spokesman for the Covert Action Information Bulletin, in a news conference, alleged him to be the CIA Station Chief. The incident exemplifies most vividly the potential for harm which flows from the activities of organizations like Covert Action Information Bulletin, and why I continue to believe such activities should be restricted under the law. I further believe we can ill afford to wait until another member of a U.S. overseas mission comes home in a casket before the Congress addresses this pressing problem.

Sincerely,

/s/ Frank C. Carlucci
